Starter bundle: AI 01 and SC 05 universal

The basic model **AI 01** is a stripping machine driven by an electric motor. Exact stripping of conductors with different insulation is possible in cross-sections of **0.05 - 6 mm²**. The settings are made using a turning knob. A special funnel for the insertion of thin strands is included.

The **SC 05 universal** is equipped with a very powerful electropneumatic motor controlled via footswitch. The standard built in **quadro crimping tool** can be used to process ferrules from **0.5 - 6 mm² (insulated/uninsulated)** and twin ferrules with plastic collars from **2x0.5 - 2x2.5 mm²** with crimping lengths **5 - 18 mm** possible without tool changing.

Adapting different sleeve cross-sections can be done by turning a knob on the front of the machine panel. Further adjustments are not necessary.

AI 01 + SC 05 universal

UNIC-G for Z+F ferrules on reel

The UNIC-G is an electropneumatic stripper-crimper. The machine allows a quick and reliable processing of Z+F ferrules on reel in the range of **0.5 up to 2.5 mm² (AWG 20 - 14)** without changing the tools. In addition to high process reliability, you and your customers benefit from our **UL 486 F** and **US-CSA** certifications.

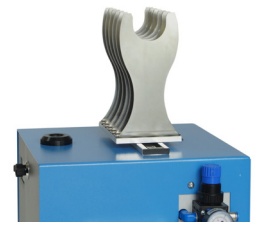

UNIC-G and UNIC-GS are now available with a fivefold infeed, which allows an even more efficient wire processing.

UNIC-L/LS for loose uninsulated Z+F ferrules

Our UNIC-L/LS enables universal processing of wire end ferrules **without changing tools** and **without adjusting the stripping knife between the cross-sections**. Even multinorm ferrules with an enlarged plastic collar and different crimping lengths (UNIC-LS) can be processed **without changing tools**.

In addition to a high process reliability, all crimps are conforming our **UL 486 F** and **US-CSA** certification.

We offer you the **UNIC-L** and **UNIC-LS** in the cross-sections **0,5 - 1,5 mm²** or **1,5 - 2,5 mm²** as follows:

UNIC-L

V10AL000196 (0,5 - 1,5 mm²)
V10AL000197 (1,5 - 2,5 mm²)

promotion price:
7.995,- Euro

UNIC-LS

V10AL000198 (0,5 - 1,5 mm²)
V10AL000199 (1,5 - 2,5 mm²)

promotion price:
9.995,- Euro

In addition to our special prices we can provide those machines with a shorter delivery time!

Use this difficult time to repair and service your machine, that you are well prepared for the rebound.

NEW: We can now offer you all colour codes of the insulated and uninsulated ferrules in the cross-section range from 0.50 - 50 mm² with UL 486F certification!
